Profile

As a freelance web3 front-end engineer, I bring a wealth of technical expertise in React, JavaScript/Typescript, HTML, CSS and blockchain technology. With a passion for creating cutting-edge user experiences, I am committed to delivering outstanding results. I prioritize clear communication, collaboration, and going the extra mile to ensure that projects are completed to the highest possible standard. With a successful track record across multiple industries, I am confident in my ability to exceed expectations and bring your vision to life.

Employment History

Front-end Engineer, Sedn

DECEMBER 2022 – MAY 2023

- Worked with a team to develop the first phase of Sedn
- Took lead on building the UI for the web app (click [here](#) for a short demo)
- Worked closely with the back-end team to develop and improve features
